ICT personnel

Delta state innovation Hub

March 2019 - Feb 2021

FrontEnd Developer Role

As an adept Front End Developer, I have a well-rounded skill set in HTML, CSS/SASS, JavaScript, React.js, Git and resolving software problems(debugging) and honed talents in programming making me an ideal fit for the Front End Web Developer position. Further, I am good at problem-solving and am a communicative collaborator. My previous roles have strengthened my capabilities in teamwork and communication, including keen attention to detail and accuracy.

Education

UNIVERSITY OF NIGERIA, NSUKKA

2019-present

B.MR

Skills

- HYPERTEXT MARKUP LANGUAGE(HTML5)
- CASCADING STYLE SHEET (CSS3)
- JavaScript /Object-oriented programming
- REACT
- GIT/GitHub

Projects

Responsive E-Commerce Website

- **E-commerce Website:** With an agile team of one frontend developer and a backend developer, we were able to build an E-commerce Website using React as a frontend library and express as a backend framework. More so we integrated Stripe, dotenv(for enhancing security), nodemon, mongoose and other dependencies during its production. We used styled component in styling our functional based component and much more.

Calculator

CALCULATOR: I built a functional web-based digital calculator with all the functional attributes of a calculator in performing simple operations developed using HTML, CSS and JavaScript.

TODO LIST

TODO list: I built a simple app which Implements the functioning of a To-Do list that completes varied functions like Addition, removal, and updates in the tasks, developed using HTML, CSS and JavaScript.
